## SUMMARY

UI/UX and Product Designer with experience designing responsive websites, SaaS products, mobile applications, and education platforms. Skilled in Figma, wireframing, prototyping, design systems, and user-centered interface design, with a focus on clear workflows and usable digital experiences.

## EXPERIENCE

### Product Designer

Navodaye Innovation Center — Jan 2026 – Present

- Designing LMS and EMS products, translating educational and operational requirements into clear user flows and interfaces.
- Designing LMS experiences focused on making e-learning more engaging and intuitive for children.
- Creating wireframes, high-fidelity UI, reusable components, and responsive layouts in Figma.
- Collaborating with developers and stakeholders to refine requirements, interactions, and implementation details.

### UI/UX Designer

Mindrisers — Dec 2025 – Present

- Designed the NTechLabs website with a clear information structure, responsive layouts, and consistent visual language.
- Designed a CRM for Mindrisers to improve customer tracking, follow-ups, and customer-management workflows.
- Redesigned the existing HIDR website, improving information structure, navigation, and overall user experience.
- Designed the SheGuidesMe mobile app, developing user flows, wireframes, and high-fidelity interface designs.

### UI/UX Designer

Blacktech Company — Feb 2025 – Dec 2025

- Contributed to the RestroX website redesign through wireframing, layout structuring, responsive UI, and usability improvements.
- Designed and refined RestroX restaurant-management software across web and mobile, focusing on workflow efficiency and visual consistency.
- Designed interfaces for ShareMyMenu, ZB Web billing software, consultancy management software, and other business-focused digital products.
- Designed responsive websites and mobile experiences for restaurant, beauty, real-estate, and other business use cases, collaborating with developers through Figma.

## SKILLS

- Design Tools: Figma, Adobe Photoshop, Illustrator, Canva
- UI/UX Design: Wireframing, Prototyping, Interaction Design, UX Writing
- User-Centered Design: User Research, Usability Testing, Accessibility & Inclusive Design
- Design Systems & Branding: Reusable components, visual consistency, brand guidelines
- Front-End Development: HTML, CSS
- Collaboration: Developer handoff, stakeholder communication, cross-functional teamwork

## EDUCATION

- BSc (Hons) Computing – Islington College | Expected 2026
- +2 in Management – Global College of Management | 2023

## CERTIFICATIONS

- UI/UX Design Certification – Mindrisers
- AWS Academy Graduate: Machine Learning (NLP & Foundation), Data Engineering, Cloud Foundation

## ADDITIONAL INFORMATION

- Languages: Fluent in English and Nepali
- Interests: Digital Innovation, Human-Centered Design, Photography, and Travel
